All the winning brands you need. All in one place.

Kimberly-Clark Professional provides trusted, quality products that safeguard workers and the workplace. These include comfortable, reliable personal protection, clean and consistent task-engineered wipers, and consumer-preferred restroom solutions.

Leading brands include:

- **KleenGuard™** single-use protective clothing, hand protection and eye protection
- **WypAll®** Wipers, the No. 1 brand of disposable wipers in North America
- **Kimtech™** apparel, gloves and wipers for lab and cleanroom environments
- **Scott®, Kleenex®** and **Cottonelle®** tissue, towel and skincare offerings that consumers know and trust

Why choose Kimberly-Clark Professional safety, wiping and restroom solutions?

World-class safety

As a manufacturer dedicated to protecting our own workers, Kimberly-Clark Professional knows safe workplaces don't just happen. Safety emerges from solutions that continually improve your business.

We leverage what we've learned from our experience in all our safety, wiping and restroom product designs, bringing you trusted, quality solutions that energize best-in-class workplace experiences – so you and your workers can achieve the exceptional, time after time.

Workplace protection & cleaning

Our broad suite of products and services include comfortable, reliable personal protection, clean and consistent task-engineered wipers, and people-preferred restroom solutions. The result? Top-to-bottom protection and comfort without compromise – safeguarding people, their environments and work processes.

We offer personal protective equipment (PPE), plus wiping and restroom solutions to meet the needs of virtually any facility, while enhancing efficiency, performance and compliance.

Built-In environmental protection

Kimberly-Clark Professional offers a portfolio of products from trusted brands that deliver cutting-edge sustainable solutions. When you're finished using KleenGuard™ and Kimtech™ Apparel, Nitrile Gloves and Eye Protection, you can recycle them through The RightCycle™ Program and help to deliver zero waste to your facility. We have also pioneered sustainable innovation such as coreless bathroom tissue that eliminates core waste and engineered 100% of our hand towels and WypAll® L line of wipers to be compostable.¹

¹ All Kimberly-Clark Professional paper towels can be aerobically composted in municipal or industrial facilities in the United States and Canada by ASTM D6868-11.

Wiping & cleaning solutions

Today's workplaces are changing and challenging. Everything your employees do and use must be efficient and cost-effective in order to help you meet your key performance indicators (KPIs). Waste of time, motion, money and supplies has a direct impact on your productivity and costs. And that includes the products you choose for your wiping and cleaning solutions.

At Kimberly-Clark Professional, we leverage our expertise in the wiper category to create products that can actually reduce waste, improve productivity and increase the overall efficiency of your operation.

No matter the workplace environment, we have the solutions for every wiping and cleaning need.

**Save 20%
in 60 days**

SAVE FOR 60 DAYS

We are so confident that you will realize cost savings with our WypAll® and Kimtech™ Brand products that we offer a Money Back Guarantee.†

Try it. Risk-free.

Save 20% in 60 days with WypAll® X Cloths or specified Kimtech™ Wiping Solutions or Your Money Back. Guaranteed!

See the Resources & Tools section at the back of this catalog OR contact your Kimberly-Clark Sales Professional for program details.

† Guarantee extended to consuming end-user accounts with the following restrictions: Replace your current rags or laundered towels with WypAll® X Brand Wipers; replace your current wiping system with Kimtech™ Wiping Solutions for 60 days and see a 20% savings on chemical costs (06411, 06471, 77320, 36101). The maximum amount that Kimberly-Clark Professional will pay out under this program is \$1,000 per customer facility. Void where prohibited, taxed or restricted by law. Not responsible for lost, late, misdirected, incomplete or undeliverable submissions. Kimberly-Clark Professional reserves the right to modify or cancel this program at any time. See individual brochures for specific details and eligible codes. Note, WypAll® L Towels do not qualify for the money back guarantee.

Wiping solutions for every workplace

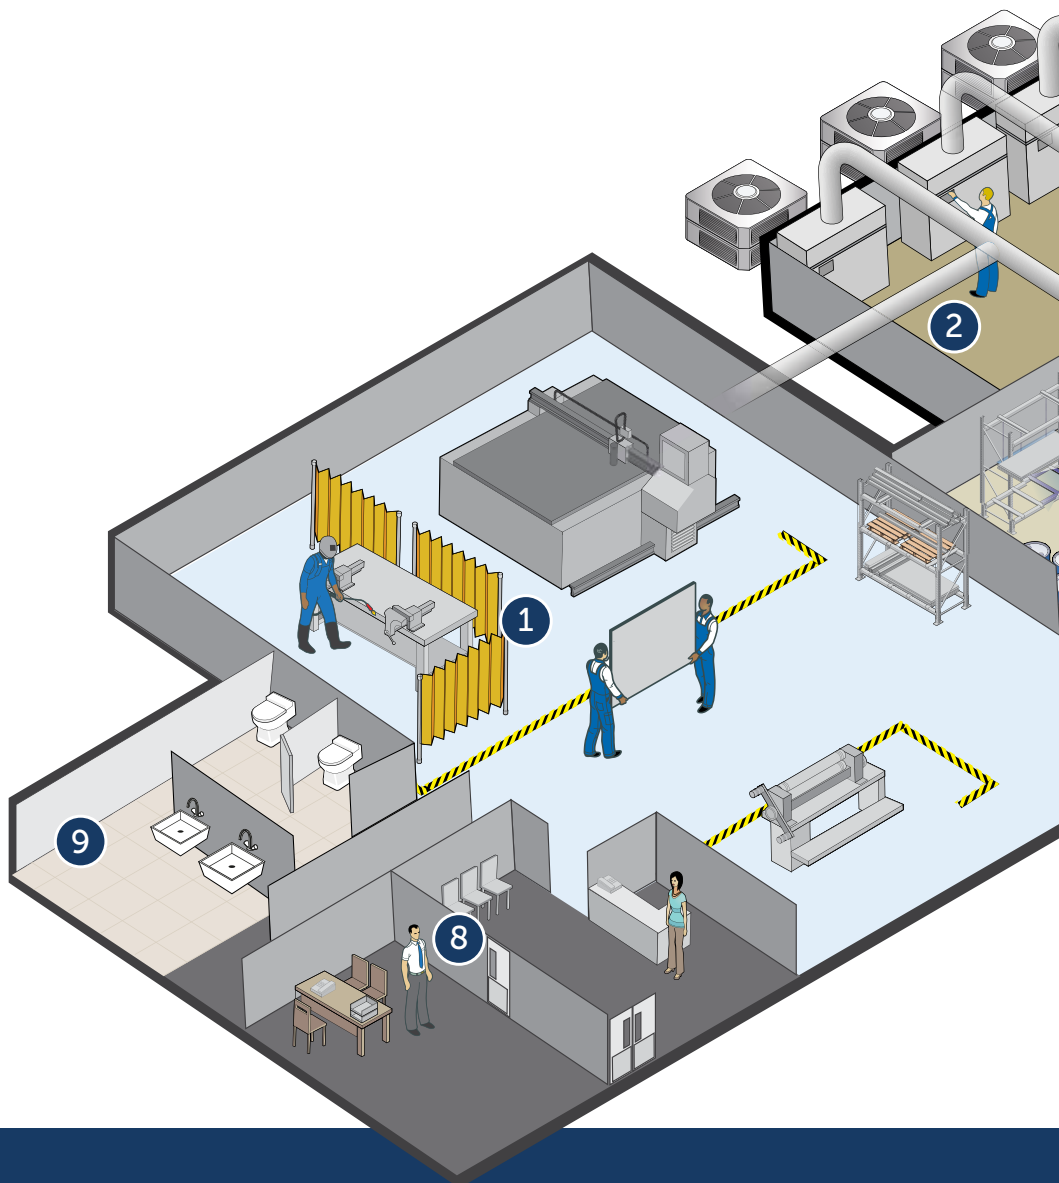

MANUFACTURING

Manufacturers like Kimberly-Clark need wiping solutions to help them eliminate process waste, so they can achieve their KPIs. They're responsible for continuous improvement initiatives.

Workers often use wiping tools that don't measure up to the task.

- That can adversely impact the bottom line through inefficiencies, quality defects and/or waste.
- Commonly used rags aren't engineered for wiping, and textiles are inefficient.

WypAll® Cloths and Towels offer strength, absorbency and versatility for the task — and they're safer, cleaner and more cost-effective than rags and rental shop towels. Kimtech™ Wipers provide the high-performance wiping solutions you need for specialized surface preparation and cleaning.

FOODSERVICE

Front of House • Back of House • Kitchen/
Food Prep Areas

The majority of consumers are concerned about cleanliness while dining out. Help reduce the risk of contamination and ease their hygiene concerns with the Kimtech™ WetTask™ Wiping System & WypAll® Foodservice Wipers. Both are ideal solutions where eliminating cross-contamination and surface disinfection are essential.

RETAIL

Checkout Area • Main Aisle Areas • Fresh Produce • Grocery/Deli

With employees stocking shelves, bagging purchases and handling fresh food, germ transmission is a real concern for shoppers. That means good hygiene practices are critical everywhere – from your receiving area all the way to food prep and the deli.

Sustainability and Wipers

With our leading WypAll® and Kimtech™ Wipers, you can use less product for your wiping tasks, thus reducing waste.

In addition,

- WypAll® L10 and L20 Series Wipers **meet the EPA guidelines** for minimum post-consumer waste content

- WypAll® L30 and L40 Series Wipers, as well as Kimtech Science™ Kimwipes™ and Kimtech Science™ Precision Wipes are **FSC® Certified**

- WypAll® L Series Wipers can be **composted***

- **100% of electricity** used to make WypAll® L and X Series Wipers is offset by **wind energy****

Our Wiping Solutions can help you find ways to reduce your impact on the environment without sacrificing performance.

* Kimberly-Clark Professional L10, L20, L30 and L40 white wipers can be aerobically composted in municipal or industrial facilities in the United States and Canada by ASTM D6868-11. Check with your waste hauler to ensure your application and their composting process are compatible

** 100% of our grid electricity in North America has been offset through the creation of wind farms in Oklahoma and Texas

WYPALL® BRAND

WypAll® Wipers – The right tool for the task

Workers are essential to the productivity of a company, yet they are often given tools that do not always measure up to the task.

It's critical to set high standards when making a wiping decision. After all, your decision can impact the bottom line – either creating inefficiencies, quality defects and waste OR the ability to improve them!

WypAll® Wipers are clean, consistent and a reliable replacement for towels, rags or shop towels. Designed to reduce waste which means you spend less. **Guaranteed.** With WypAll® Wipers you increase productivity with every wipe.

*WypAll® Wipers, the #1 brand in
disposable wipers in the U.S. and Canada.**

* Based on market share

Selecting the right wiper

From wiping up grime to soaking up spills, effective cleaning is essential to your operation. It directly affects your product quality and your people. And selecting the right cleaning tools means everything. So choose your wiper based on your specific needs — and count on Kimberly-Clark Professional to help you make your workplace truly exceptional.

Description	Task	Solvent Resistance	Absorption Capacity	Wet Strength	Absorption Rate

Increase productivity, reduce waste, spend less

A good product "fit" ensures quality performance, safety and efficiency. It's also how we improve productivity, with no extra wipers or effort needed to complete each task.

WYPALL® WIPERS VS. RAGS

CHOOSE	IT'S A MYSTERY! You never know what you'll get in a box of rags. WypAll® Wipers are contaminant-free and provide consistent size, shape and quality with each individual wiper.
STORE	68% LESS SPACE! WypAll® Wipers require 68% less storage space than rags.
DISPENSE	NO MORE DANCING! Moving from work to the rag dispenser, selecting a just-right rag, then going back to work. What a waste!
USE	WypAll® Wipers absorb MORE THAN 2X the amount of water as rags.
DISCARD	USE LESS, WASTE LESS! WypAll® Wipers reduce waste by 78% vs. rags

Wiper dispensing systems

It's an innovation only Kimberly-Clark Professional could bring you: Products that deliver value, performance and versatility. Whether the workplace environment calls for mobile, benchtop or high capacity, the solution is here.

L40 Towels

Soft like a tissue, absorbs like a sponge, toss like a towel

WypAll® L40 Wipers feature our unique DRC (Double Re-Creped) base sheet technology. This unique process creates an absorbent sponge-like inner layer that absorbs liquids fast, with a soft, touchable outer layer.

Double Re-Creped Technology

Available in white and blue for color-coding tasks

Easily absorbs liquids, lubricants and oils

Solvent Resistance	Absorption Capacity	Wet Strength	Absorption Rate
● ● ● ● ● ●	● ● ● ● ● ●	● ● ● ● ● ●	● ● ● ● ● ●

FEATURES & BENEFITS

- Easily absorbs liquids, lubricants and oils
- Compostable⁵
- Portable, convenient point-of-use options enhance productivity
- Removes soils and liquids from face and hands[†]
- White or Blue color for task wiping

TASKS

- Absorbing spills – big and small
- Wiping face and hands[†]
- Everyday cleaning and maintenance

Wiping solutions

KIMTECH™

Kimtech™ Brand Wipers

From the very beginning, Kimtech™ Brand has offered truly innovative wiping solutions. Over 70 years ago, we created Kimtech™ Kimwipes™, the first and still the No. 1 lab and research wiper. Kimtech™ WetTask™ continues to be the ideal choice for improved cleaning efficiency when reliability and precision count. Be assured that the Kimtech™ Brand continues to provide the high-performance wiping solutions you need for specialized surface preparation and cleaning.

Kimtech Prep™ Wipes for the WetTask™ Wiping System

The Kimtech™ WetTask™ closed bucket system ensures you have a clean wiper each time you clean. This helps reduce the risk of cross-contamination of *C. difficile* and other microorganisms.

- Use with your preferred disinfecting solution.
- Choose the Kimtech™ Wiper that works best for your task.
- Enclosed system to reduce risk of cross-contamination and exposure to chemical vapors and splashes.
- Guaranteed to **reduce your chemical usage** by at least 20%.

Kimtech Prep™ Wipes for the WetTask™ Wiping System *Meltblown*

For critical tasks in healthcare and clean-manufacturing environments

FEATURES & BENEFITS

- Delivery system enables use with the chemical of your choice
- Compatible with most common disinfectants: bleach (sodium hypochlorite), hydrogen peroxide, peracetic acids and quaternary amines
- Enclosed system helps minimize risk of cross-contamination
- Reduces exposure to chemical vapors and splashes
- Clean, fresh wiper every time

TASKS

- Surface cleaning, sanitizing and disinfecting
- Infection prevention procedures

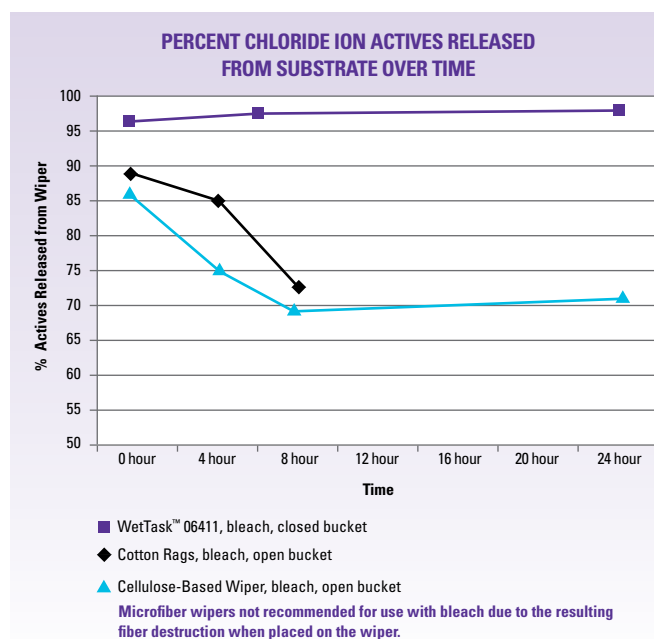

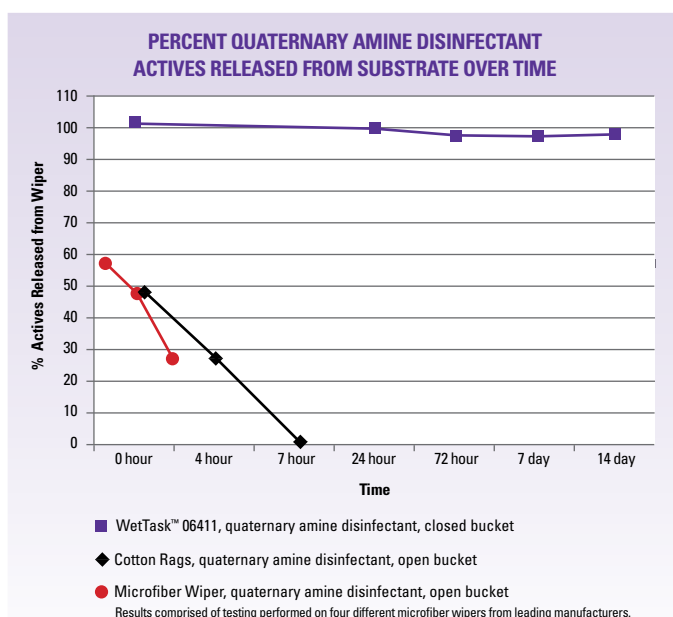

ENVIRONMENTS

- Healthcare
- Grocery
- Hospitality
- Hygiene-critical, manufacturing
- Food processing
- Education
- High-traffic

Compare Kimtech™ WetTask™ System Wipes with other wiping materials

Test results demonstrate that Kimtech™ WetTask™ Wipes better maintain the target concentration for bleach and quaternary amine disinfectants when compared with microfiber, cotton rags and cellulose-based wipers.

Kimtech Prep™ Wipes for the WetTask™ Wiping System *Hydroknit®, Spunlace and Bonded Carded Web*

For critical tasks in food and manufacturing industries

FEATURES & BENEFITS

- Delivery system enables use with the chemical of your choice
- Compatible common solvents and chemicals; peroxide, bleach, MEK, isopropanol, acetone
- Enclosed system helps minimize risk of cross-contamination
- Reduces exposure to chemical vapors and splashes
- Clean, fresh wiper every time

TASKS

- Cleaning, and removing soil, oil and grease
- Surface preparation and solvent application
- Disinfects and sanitizes when used with compatible chemical

ENVIRONMENTS

- Manufacturing
- Grocery
- Foodservice
- Food processing
- Paint preparation
- Automotive and MRO (maintenance, repair and operations)

Kimtech Prep™ Scottpure™ Wipes

Ideal for surface preparation before critical tasks

FEATURES & BENEFITS

- Low-lint
- Cloth-like softness
- Excellent absorbency and release of solvents
- Low extractables

TASKS

- Surface prep before maintenance and cleaning
- Critical process requiring chemical application
- Ideal surface preparation before critical task like painting and sealant application

ENVIRONMENTS

- MRO
- Aviation
- Pharmaceutical
- Composite manufacturing
- Paint preparation and advanced manufacturing

Kimtech Science™ Kimwipes® Delicate Task Wipes

The industry standard for labs and research

When it comes to precision cleaning in a lab or research environment, you need wiping products you can trust. The Kimtech™ Brand's innovative wiping solutions provide the assurance you need to do your best work while protecting critical environments and processes.

The industry standard for labs and research. Introduced over 70 years ago, Kimtech Science™ Kimwipes® Wipers were the first delicate-task wiper for laboratories and since then have been the market leader for wiping surfaces, parts, instruments and cleaning lenses. Other products have tried to imitate, but have never matched the original. Don't put your delicate processes at risk.

FEATURES & BENEFITS

- Gentle texture
- Low lint and low extractables
- Also available in 2-ply and 3-ply for increased absorbency

TASKS

- Delicate task wiping and cleaning of instruments, lenses, surfaces, and parts
- Absorbing liquids

ENVIRONMENTS

- Labs
- Research facilities
- Healthcare, medical/dental offices
- Pharmaceutical, biotech, high-tech
- Education
- Manufacturing

Kimtech Pure™ W4 Wipers

Specifically designed for ISO Class 4 and higher cleanrooms

FEATURES & BENEFITS

- 100% polypropylene
- Thermally bonded; no glues or binders
- Acid-, base- and solvent resistant
- Straight, clean, knife-cut edges to minimize lint
- Pre-saturated with 70% isopropyl alcohol/ 30% deionized water
- Pre-Saturated Wipers are ideal one-step application of alcohol to critical surfaces
- Dry wipers are great for absorbency and cleaning critical surfaces and parts

TASKS

- Cleaning critical surfaces and parts

ENVIRONMENTS

- Pharmaceutical
- High-tech
- Biotech
- Medical device facilities, labs and cleanrooms

Personal protection solutions

We offer protection and comfort without compromise – to safeguard workers, their environments and work processes. Our full range of personal protection products are designed to meet the needs of virtually any facility, while enhancing efficiency and performance. We offer something that our competitors do not: a way to divert used gloves, apparel and safety eyewear from the landfill. Turn to KleenGuard™ and Kimtech™ Solutions to enhance safety, compliance and sustainability in your workplace.

By Kimberly-Clark Professional®

We make it easy to do the right thing

Take the next step in achieving your waste reduction goals with **RightCycle by Kimberly-Clark Professional®**. You can recycle many of our apparel items, safety eyewear, and nitrile gloves, including:

Protective Clothing

- KleenGuard™ A10, A20, A30, A35, A40, A45, A60, and A65 apparel items
- Kimtech™ A4, A5, A6, A7, and A8 apparel items

Hand Protection

- KleenGuard™ G10 Series Nitrile and G29 Chemical Gloves
- Kimtech™ G3 and G5 Sterile and Non-Sterile Cleanroom Gloves
- Kimtech™ Nitrile and Latex Exam Gloves

Eye Protection

- KleenGuard™ Element™, Unispec™ II, Visio™, Nemesis™, and Maverick™ Eyewear

Wipers

- Kimtech Pure™ W4 and W5 Wipers

Look for this symbol to see which products are eligible for recycling.

Protective clothing

KLEENGUARD™

Single-use protective clothing

KleenGuard™ protective clothing is the first line of defense for protecting people, performance and productivity. Our human-centric designs allow workers the freedom to do their best work, without interruption. Powering this global brand of single-use protective clothing is our internal expertise and manufacturing of nonwoven materials. Kimberly-Clark Professional is credited for creating SMS material used in single-use protective clothing. Our breathable fabrics keep workers cool and comfortable, while our Reflex® Design provides fuller cut and freedom of movement – enabling workers to move freely while staying protected.

Work-related skin diseases account for approximately 50% of occupational illnesses and are responsible for an estimated 25% of all lost work days.⁶

Selecting the right protection

The purpose of protective clothing is to safeguard the wearer from workplace hazards when engineering, work practice and administrative controls are not feasible or do not provide sufficient protection.

In those instances, protective clothing should be used as a supplementary method of control. Selecting the right protective garment is critical and must be based on anticipated hazards, specific job tasks and working conditions. To achieve maximum safety and compliance, it's essential to consider form and function as well as fit and comfort.

Selecting the right garment

Selecting the right protective garment is critical and must be based on anticipated hazards, specific job tasks and working conditions. To achieve maximum safety and compliance, it's essential to consider form and function as well as fit and comfort.

Coverall styles

Accessories

Symbols key

 Product complies with the Trade Agreements Act

 Reflex® Coverall Design

 Look for this symbol to see which products are eligible for recycling.

TAA compliant

Complying with the Federal Acquisition Regulations (FAR) is something that is top of mind for all Federal Government employees. One of the key elements and most easily missed elements of the FAR is the reference to the Trade Agreements Act (TAA), meaning products must be manufactured or "substantially transformed" in a "designated country." Kimberly-Clark has developed a full line of TAA compliant protective apparel that provides you with the peace of mind and reassurance that you are purchasing product that complies with the Trade Agreements Act.

The power of Reflex® Coverall design...

You want it for comfort but wear it for productivity

The KleenGuard™ Reflex® formula

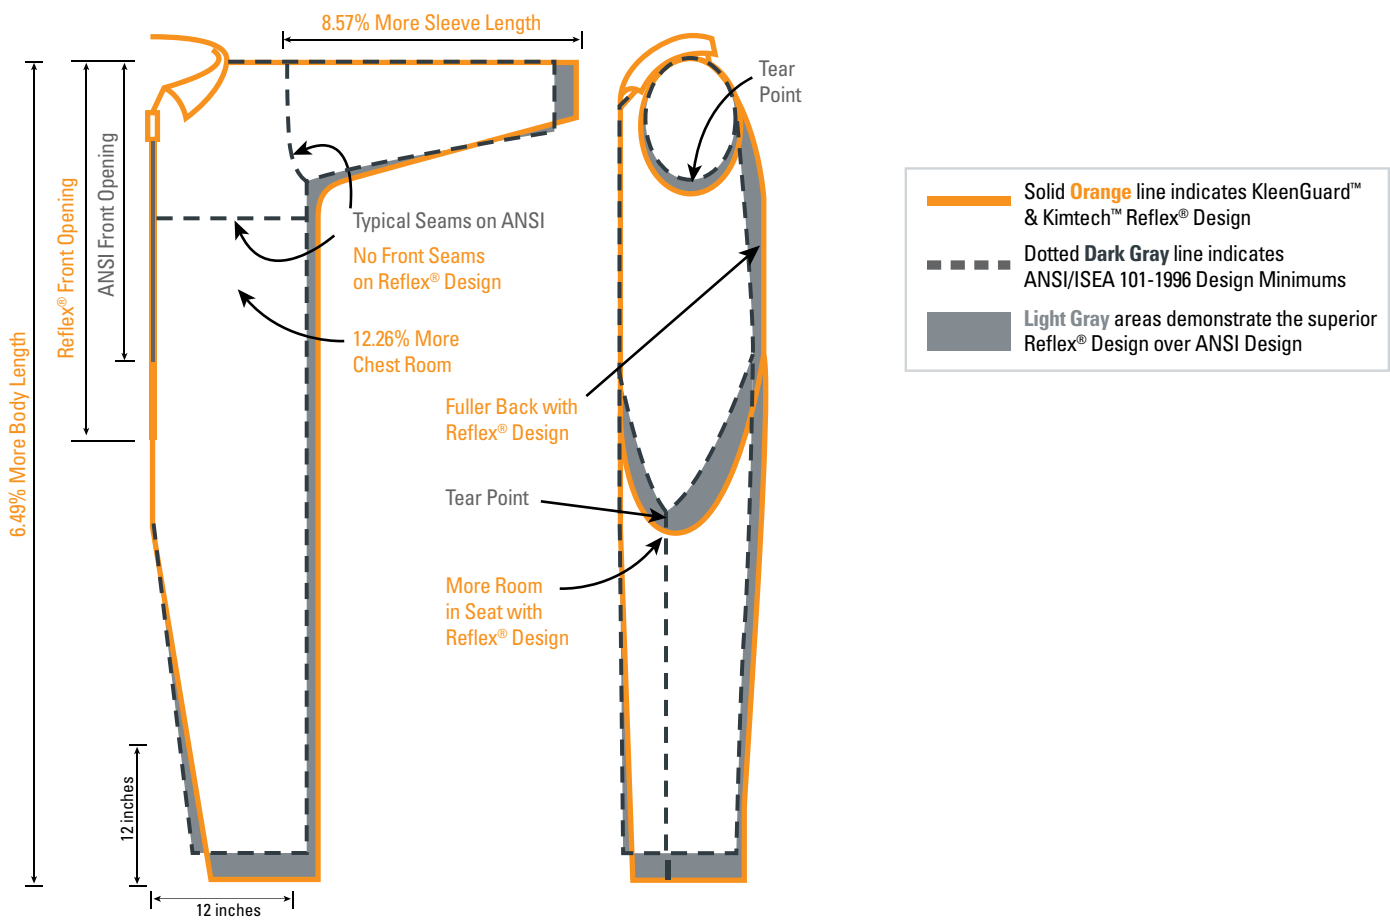

Coveralls that don't fit right are a hindrance to safety, performance, productivity and your budget. Wearing a protective garment that is not true to size can actually increase employers' PPE expense.

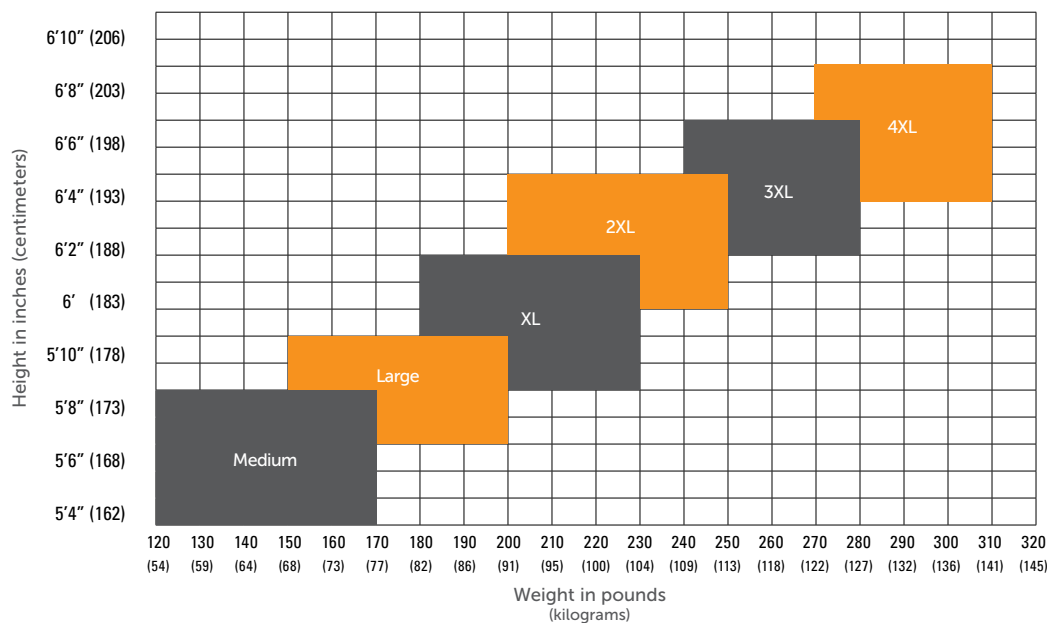

Look for this symbol to see which products include the Reflex® Design.

Using a KleenGuard™ brand coverall with Reflex® Design has shown to save manufacturing companies 21% savings on their coverall PPE spend.

Reflex® Garment versus ANSI sizing comparison

Sizing chart for Reflex® Design garments

KleenGuard™ Brand features human-centric design that allows workers the freedom to move with purpose, while providing maximum safety and productivity.

Dry particle protection

A10 Light Duty Particle Protection

Entry-level protection against nonhazardous dirt, dust and grime

Meets ANSI/ISEA 101-1996
sizing standards

PERFORMANCE

Protection:

- Entry-level dust protection

Comfort/Fit:

- Lightweight, breathable – provides a cool, comfortable work environment

TYPICAL USES

- Food processing
- General maintenance

Recyclable with RightCycle
by Kimberly-Clark Professional®

2x greater particulate holdout than the average competitive SMS

7.5x less likely to rip out vs. minimum ANSI sizing, reducing down time

A20 fabric provides **better breathability** than comparative Tyvek® fabric

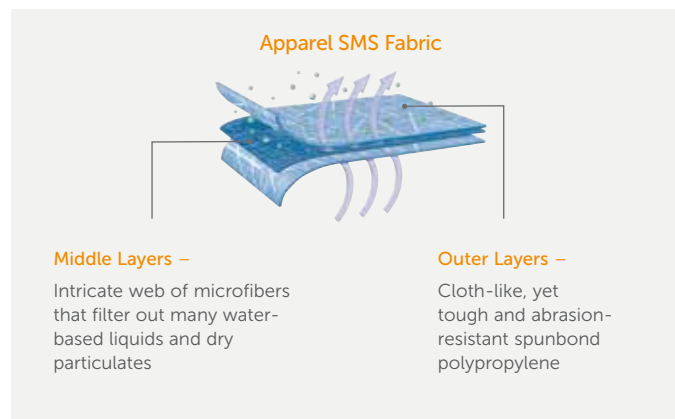

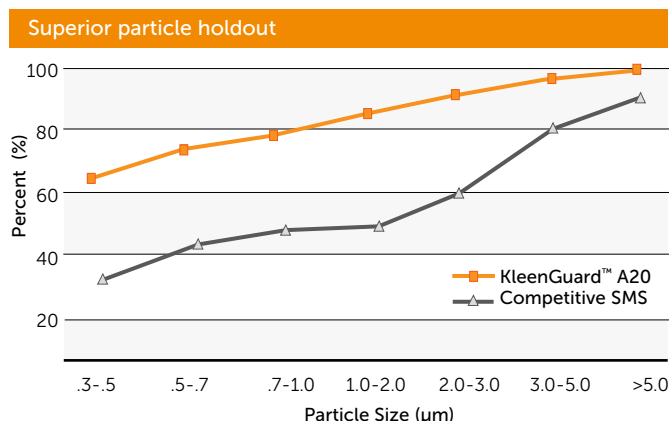

Available in White and Blue Denim — a great way to visually separate processes in your facility

Reflex® Design provides a fuller cut and generous fit for added range of motion

Meets the EPA Agricultural Worker Protection Standard (WPS) requirements for "coveralls"

All-day protection against nonhazardous and hazardous dirt, dust and grime

PERFORMANCE

Protection:

- Over 99% particle holdout against particles (>5 microns)
- Over 96% particle holdout against mold

Comfort/Fit:

- Human-centric, Reflex® Design incorporates 12% more chest room and 6% longer body length than ANSI sizing standard, providing uninhibited movement and wearer comfort

TYPICAL USES

- Laboratories
- Remediation
- Heavy dust environments
- Pesticide application

Hooded only

ISO 16602: 2007 is an international standard that establishes minimum performance classifications for protective clothing. Select KleenGuard™ families have been tested to ISO 16602 Type 5 and Type 6. Type 5 (EN ISO 13982-1) denotes protection against solid particulates and Type 6 (ISO 16602) denotes limited protection against liquid spray.

A30 Breathable Particle & Light Splash Protection

All-day protection against hazardous dry particles, aerosols and nonhazardous light liquid splash

PERFORMANCE

Productivity:

- Made from a strong and breathable three-layer SMS fabric designed to reduce heat stress and enhance productivity

Protection:

- Over 99% particle holdout against particles >5 microns

Comfort/Fit:

- Human-centric, Reflex® Design incorporates 12% more chest room & 6% longer body length than ANSI sizing standard providing uninhibited movement and wearer comfort

TYPICAL USES

- Powder painting
- Pharmaceutical research
- Fine-particle contamination
- Aerospace
- Maintenance/general manufacturing
- Aerosolized spray painting
- Contract cleaning

Available with skid-resistant boots:
Up to 68% improvement in traction on wet and dry surfaces – helps users reduce the risk of slips, trips and falls*

*Compared to the original boot material on the A30 and A45 coveralls.

A45 Liquid & Particle Protection

For protection against dry particulates, liquid sprays and splashes

PERFORMANCE

Protection:

- Lightweight, microporous film laminate technology specifically designed to seal out chromate dust and isocyanates⁷
- Water-resistant zipper and storm flap reduces potential for overspray to penetrate the garment at the zipper area
- Respirator fit hood is designed with a long zipper extending to the chin for complete coverage of neck area minimizing the potential exposure to overspray

Comfort/Fit:

- Human-centric, Reflex® Design incorporates 12% more chest room and 6% longer body length than ANSI sizing standard, providing uninhibited movement and wearer comfort
- Made with lighter-weight fabric than KleenGuard™ A40 coverall, allowing for improved comfort without sacrificing protection

TYPICAL USES

- Composite manufacturing
- Surface prep
- Paint preparation, paint application
- Liquid handling
- Chemical & pharmaceutical industries
- Utilities
- Electronics
- Agricultural
- General manufacturing

A60 Bloodborne Pathogen & Chemical Protection

Protection against bloodborne pathogens, bodily fluids and chemicals

PERFORMANCE

Protection:

- Passes ASTM F1670/F1671 testing for penetration of blood, bodily fluids and bloodborne pathogens
- Tested against 20 common industrial chemicals

Comfort/Fit:

- Human-centric, Reflex® Design incorporates 12% more chest room and 6% longer body length than ANSI sizing standard, providing uninhibited movement and wearer comfort
- Fabric allows moisture (sweat) to escape, enhancing wearer comfort

TYPICAL USES

- Emergency medical response
- Crime labs
- Crime scene cleanup
- Forensics and animal research

Hooded only

ISO 16602: 2007 is an international standard that establishes minimum performance classifications for protective clothing. Select KleenGuard™ families have been tested to ISO 16602 Type 5 and Type 6. Type 5 (EN ISO 13982-1) denotes protection against solid particulates and Type 6 (ISO 16602) denotes limited protection against liquid spray.

KleenGuard™ A60 fabric liquid chemical resistance test

Flame resistant protection

A65 Flame Resistant Protection

Protection against nonhazardous and hazardous dust in areas where exposure to sparks is possible

PERFORMANCE

Protection:

- Flame resistant and compliant with NFPA 701 Flame Propagation Test (1999 edition)
- Complies with flame resistance requirements cited by paragraph 6.1 of CAN/CGSB-155.2-2000

Comfort/Fit:

- Meets ANSI/ISEA 101-1996 sizing standards

*Do not use for fire protection. Avoid open flame and intense heat.
KleenGuard™ A65 garments do not provide thermal insulation or protection.*

TYPICAL USES

- Utilities
- Foundries
- Fabricated metal products
- Petrochemical plants
- Refineries
- Fuel distribution

Chemical Spray Protection

Chemical spray protection

PERFORMANCE

Protection:

- Liquid-resistant, extra-long zipper delivers protection in primary exposure area
- Bound seams and taped storm flap for added protection
- Tested against more than 60 common industrial chemicals
- Respirator-fit hood designed for compatibility with complementary PPE

Comfort/Fit:

- Human-centric, Reflex® Design incorporates 12% more chest room and 6% longer body length than ANSI sizing standard, providing uninhibited movement and wearer comfort
- Wick-away lining provides enhanced comfort

TYPICAL USES

- Industrial cleaning and maintenance
- Hazardous waste remediation
- Environmental and biohazard cleanup
- Tank cleaning

A71

Chemical Permeation & Jet Liquid Protection

Protection against chemical permeation and liquid jet spray

PERFORMANCE

Protection:

- Sewn and taped seams offer a strong liquid barrier
- Highly visible yellow color for improved worker safety
- Tested against dozens of common industrial chemicals
- Specialized VELCRO® storm flaps for improved zipper protection
- CE Type 3, 4, 5 (ENISO 14605:2005 and ENISO 13982-1: 2004)

Comfort/Fit:

- Elasticized hood, wrists and waist designed for improved comfort and safety

TYPICAL USES

- Hazardous waste remediation
- Environmental and biohazard cleanup
- Tank cleaning

-  Recommended for ISO Class 7, 8 or higher cleanroom
-  Recommended for ISO Class 6, 7, 8 or higher cleanroom
-  Double Bagged for clean environments

A7 Cleanroom Lab Coat

FEATURES

- Enhanced chemical and biological protection
- Thumb loops to maintain glove and garment interface
- Low lint to reduce contamination risk
- High mandarin collar to reduce the risk of contamination
- Advanced Barrier Fabric for better liquid and dry particle protection
- Elastic wrist and thumb loops for full wrist coverage

Gowns

A7 Liquid Barrier Gown

FEATURES

- Seamless front and closed back
- Enhanced liquid barrier protection — fabric tested per ASTM F1670, F1671 and F739-12 for permeation of chemotherapy drugs and hormones
- Easy don-and-doff design to reduce contamination risk and prevent chemicals from getting on clothing or skin
- Thumb loops to maintain glove and garment interface
- Low lint to minimize contamination
- Meets USP <800> guidelines by providing seamless protection against hazardous drugs

A7 Liquid Barrier Gown

Single-use gloves

KleenGuard™ and Kimtech™ Single-Use Gloves provide the strength and durability your special applications demand. They exceed industry standards and work hand-in-hand with other head-to-toe personal protection solutions from Kimberly-Clark Professional.

Which glove is right for you?

Choose from a wide range of offerings including a true original: our Kimtech™ Purple Nitrile™ Gloves, the most recognizable gloves on the market, and the innovative KleenGuard™ Kraken Grip™ Fully Textured Black Nitrile Glove.

After use, give your gloves new life through **RightCycle** by Kimberly-Clark Professional®, the first large-scale recycling program for nonhazardous glove waste.

Look for this symbol to see which products are eligible for recycling through this groundbreaking program. For more information visit www.KCProfessional.com/RightCycle

G10 Kraken Grip™ Fully Textured Black Nitrile Gloves

Adaptable grip plus durable protection

* Meets U.S. FDA regulations for food-handling applications

PERFORMANCE

- Fully textured palm and fingertips for grip when working with grease and slippery liquids
- Reliable wet or dry grip
- 6 mil strength and durability
- Ambidextrous for time and cost saving

COMFORT

- Grip on the outside, powder-free moisture control on the inside

TYPICAL USES

- Fabrication/machining
- Part handling
- Assembly
- Indoors/outdoors maintenance
- Cleaning
- Chemical splash
- Food handling

Recyclable with RightCycle by Kimberly-Clark Professional®

	Brand	Description	XS	S	M	L	XL	2XL	3XL	Gloves/Box	Boxes/Case
	KleenGuard™	G10 Kraken Grip™ Fully Textured Black Nitrile Glove		49275	49276	49277	49278	49279	49280	100 XL-3XL = 90	10

Maximum protection for higher-risk procedures

Ambidextrous with textured fingertips for enhanced grip

Available in 9.5" & 12" length

Beaded cuffs to make donning easier and prevent roll down

PERFORMANCE

- Powder-free to minimize contamination risk and skin irritation
- FDA cleared for use with 29 chemotherapy drugs and 4 hormones, per ASTM D6978-05 (non-sterile only)
- Meets USP <800> guidelines
- Purple Nitrile-Xtra™ 12" Gloves meet NFPA standard 1999-2018 for protecting EMS workers against liquid-borne pathogens
- Not made with natural rubber latex

TYPICAL USES

- Laboratory

G10 Blue Nitrile Gloves

Durability and strength for light-duty tasks

Foodborne diseases, due to known pathogens, are estimated to cause 9.4 million illnesses each year in the United States.¹⁰

6 mil

- 6 mil thickness for superior strength and durability
- Textured fingertips for better grip and control
- Touchscreen compatible for uninterrupted work flow
- Superior strength reduces the potential for tears and rips and improves cost-in-use
- Ambidextrous for improved cost-in-use and efficiency
- Powder-free to minimize contamination risk and skin irritation
- Beaded cuff to make donning easier and prevent roll down

Recyclable with RightCycle by Kimberly-Clark Professional®

PERFORMANCE

- Superior strength reduces the potential for tears and rips and improves cost-in-use
- Ambidextrous for improved cost-in-use and efficiency

PROTECTION

- For workers who refuse to choose between protection and productivity, KleenGuard™ G10 Blue Nitrile Gloves' puncture-resistant formulation delivers uncompromised barrier protection against chemical splash[†], dirt, grease, and oil.
- AQL 1.5 (Acceptable Quality Limit levels defined according to ISO 2859-1)

COMFORT

- Powder-free to minimize process or product contamination risk

TYPICAL USES

- Cleaning and maintenance
- Aerospace manufacturing
- General manufacturing
- Electronic assembly
- Painting
- Food processing

Chemical resistant gloves

KleenGuard™ Chemical Gloves provide dexterity and protection from dangerous or unsafe liquid hazards for those manufacturing organizations where safety and productivity goals are not in conflict.

Which glove is right for you?

Choose from a simple portfolio, including our top selling KleenGuard™ G29 Chemical Glove with Dual-Dex™ Technology that offers workers improved dexterity, tactile sensitivity and reduced exposure.

			Product Features							Chemical Glove Breakthrough													
			Single-Use	Tactile Sensitivity	Excellent Grip	Dexterity (EN:2003+A1:2009)	Powder-Free	Food Handling	Touchscreen Compatible	Abrasion Resistance (EN388)	Sodium Hydroxide, 40%	Sulfuric Acid, 96%	Acetic Acid, 99%	n-Heptane	Nitric Acid, 65%	Hydrogen Peroxide, 30%	Formaldehyde, 37%	Ammonium Hydroxide, 25%	Hydrofluoric Acid, 40%	Isopropanol, 99%	Skydrol [®] LD-4	Hydrochloric Acid, 37%	Frekote 770-NC

[†] CAUTION: This product contains natural rubber latex, which may cause allergic reactions.

Protection and productivity combined

Textured fingertips
for better grip and
control

12 mil thick
(finger) for protection
against targeted solvents

9 mil thick palm
provides abrasion
resistance

Inner layer of nitrile
for low friction donning

Dual-Dex™ Technology
offers workers improved
dexterity, tactile sensitivity,
and reduced exposure

PERFORMANCE

- Dual-Dex™ Technology offers workers improved dexterity, tactile sensitivity, and reduced exposure
- Better puncture resistance to reduce potential for Foreign Object Debris (FOD)
- Highest level of dexterity per EN420:2003 standard for efficient task completion

PROTECTION

- Neoprene blend construction designed for protection from solvents
- 12" length provides over-the-wrist coverage to protect against light splash
- Meets EN ISO 374-1:2016/Type B chemical barrier criteria

CE 0120

COMFORT

- Powder-free and silicone-free to minimize contamination risk and enhance comfort and fit
- Not made with natural rubber latex

TYPICAL USES

- Working with hydraulic fluids and solvents, such as Frekote®, IPA, nitric acid and other chemicals
- General manufacturing, lab analysis and technical work
- Painting, aerospace manufacturing and MRO
- Metal fabrication
- Janitorial cleaning

The proof is in the testing

- Up to 4X longer protection against some solvents, hydraulic fluids, oils and greases than a thin mil nitrile glove*
- Up to 1 hour of protection vs. 15 minutes with a thin mil nitrile glove*
- More than 70% of workers said they were able to perform their tasks better with this glove*

	Brand	Description	XS	S	M	L	XL	2XL	3XL	Gloves/Box	Boxes/Case
	KleenGuard™	G29 Chemical Glove	49822	49823	49824	49825	49826	49827	—	50	10

* Per a market research study conducted by Kimberly-Clark – SKYDROL® (hydraulic fluid), IPA (degreaser), Frekote (mold release agent), Diestone (cleaning solvent)

15 mil
13" nominal length

G80 Nitrile Chemical Resistant Gloves

Protection against oils, fuels, solvents, grease, acids and caustics

PERFORMANCE

- High abrasion and good puncture resistance, without compromising dexterity
- Resistant to many common chemicals, including oils and solvents
- Textured fingertips enhance grip

PROTECTION

CE 0120

COMFORT

- Flock-lined for extra comfort and easy donning
- Not made with natural rubber latex

TYPICAL USES

- Chemical processing
- Oil refining
- Metal fabrication
- Automotive assembly and painting
- Aerospace and automotive degreasing
- General maintenance/janitorial
- Process protection against raw food handling

Description	6 (XS)	7 (S)	8 (M)	9 (L)	10 (XL)	11 (2XL)	Case Count

28 mil
12" length

G80 Neoprene/Latex[†] Chemical Resistant Gloves

A different level of chemical resistance and comfort

PERFORMANCE

- High resistance to acids, alkalis, oils and solvents
- Anti-slip pattern on fingers to enhance wet or dry grip
- Neoprene over natural rubber latex construction
- Highest level of dexterity per EN 420:2003+A1:2009
- Meets EN374-KLMPST standard

PROTECTION

CE 0120

COMFORT

- Cotton flock lining adds comfort and absorbs perspiration, for easy donning and removal[†]

TYPICAL USES

- Chemical processing
- Cleaning and degreasing with soaps and detergent formulations
- Handling acids, bases, alcohols, alkalis, phenols and salts
- Wiping down parts and machinery with solvents

Description	6 (XS)	7 (S)	8 (M)	9 (L)	10 (XL)	11 (2XL)	Case Count

G40

Polyurethane Coated Gloves

Breathable, comfortable protection against abrasion

Excellent grip
and dexterity

Thin mil feel for
tactile sensitivity

Seamless knit
construction for
breathability and
comfort

Also available
in grey

PERFORMANCE

- Thin mil feel for tactile sensitivity
- Excellent grip and dexterity
- Tear-resistant
- Abrasion-resistant

PROTECTION:**COMFORT**

- Seamless knit construction for comfort

TYPICAL USES

- Precision and electronics assembly
- Small parts handling
- Control handling
- Packaging and inspecting
- Warehousing/shipping/receiving
- General maintenance

The gauge number refers to the size and type of needles used in knitting a glove – the higher the number, the thinner, more form-fitting and dexterous the shell. Low gauge gloves are more bulky, less dexterous.

Eye protection

Eye protection

Designed with the wearer's needs and style in mind, the KleenGuard™ Brand offers a wide selection of eye protection options. In addition, Kimberly-Clark Professional offers a variety of performance safety eye protection under the Smith & Wesson® brand.

KleenGuard™ Eye Protection is designed with human-centric engineering that enables rather than inhibits – allowing for maximum productivity and safety. KleenGuard™ Eye Protection — **Perform with Distinction.**

**90% of eye injuries can be
prevented through the use
of proper protective eyewear.¹⁶**

Standards

- **ANSI Z87.1:** The American National Standards Institute (ANSI) is a private not-for-profit organization that aims to enhance the global competitiveness of U.S. business and the American quality of life by promoting and facilitating voluntary consensus standards and conformity. With ANSI Z87.1, ANSI establishes the requirements for the design, construction, testing, and use of eye protection, including standards for impact and penetration resistance.
- **CSA Z94.3:** The Canadian Standards Association (CSA) is a not-for-profit, membership-based association in Canada that develops standards that address needs such as enhancing the public safety and health. The CSA Z94.3 standard relates to eye and face protectors for industrial and educational processes, outlining the performance requirements against hazards such as: flying particles/objects, heat/sparks, chemical splashes, molten metal, UV, visible and infrared radiation.

Joining The RightCycle™ Program

Kimberly-Clark Professional has expanded The RightCycle™ Program to now include protective eyewear, joining nitrile gloves and single-use protective clothing items. After your eyewear has been used, you can recycle them through The RightCycle™ Program. Reach your company's zero waste goals with this groundbreaking service, the first large-scale recycling program for nonhazardous lab, cleanroom, and industrial waste. Used PPE is converted into new consumer goods like flower pots, patio furniture, and plastic shelving.

Lens Color	Lens Properties/Use	Percent of Visible Light Passing through the Lens (Approx.)	Suggested Applications/Environments
Clear	Allows maximum visible light transmission	85% – 100%	General everyday indoor eye protection
Amber/Yellow/Orange	Light-gathering properties for low-contrast areas	52% – 91%	Good for inspection tasks and hazy, overcast or foggy days
Light Blue	Cancels yellow light that can cause eye fatigue	55% – 70%	Good for inspection tasks or anywhere glare, eye stress and fatigue could occur in yellow-light environments
Indoor/Outdoor	Reduces brightness and glare when moving from indoor or shaded conditions to outdoor environment	45% – 65%	For tasks requiring frequent movement indoor to/from outdoor – loading docks, forklift drivers, construction workers
1/2 Shade	Contrast between clear and smoke tint	45% – 50%	For tasks requiring frequent movement indoor to/from outdoor – loading docks, forklift drivers, construction workers
Copper Blue Shield	Filters out blue light for enhanced contrast	34% – 40%	Mainly for outdoor daytime use as in typical sunglass use
Teal	Reduces eye strain under sodium vapor lighting	33% – 37%	Good for inspection tasks or anywhere glare, eye stress and fatigue could occur in sodium vapor light environments
Polarized	Provides improved depth perception and contrast for optical clarity	18% – 22%	Exceptional for reducing reflective glare; primarily for outdoor use
Mirror & Colored Mirror	Reduces brightness and glare from the sun	9% – 33%	Mainly for outdoor daytime use as in typical sunglass use
Brown/Bronze/Smoke	Reduces brightness and glare from the sun	8% – 26%	Mainly for outdoor daytime use as in typical sunglass use
IRUV Shades	Protects against Infrared (IR) and ultraviolet radiation (UVA/UVB)	Depends on shade number	Predominantly for gas welding, cutting, brazing and soldering, metal making, furnace work and open flames

Lens Type Selector	Anti-Glare	Anti-Fog	Hard-coated	Uncoated
	For reducing eye strain and fatigue and enhanced comfort from prolonged computer use	For humid environments and temperature variances	For scratch resistance and longer life	For economical budgets and fewer uses

Symbols key

 Meets the optical requirements of the ANSI Z87.1 standards	 Meets the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards
 Meets the impact protector requirements of the ANSI Z87.1 standards	 Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UV-C protection
 Meets the ANSI Z87.1 requirements for liquid splash/droplet protection	 Product complies with the Trade Agreements Act
 Meets the ANSI Z87.1 requirements for dust protection	 Number denotes the base curve of the eye protection; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields
 Meets the ANSI Z87.1 requirements for fine dust protection	 Look for this symbol to see which products are eligible for recycling
 Certified to meet the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards

Eye injuries take place every day,
at a rate of more than 2,000
eye injuries per day.

Nemesis™ Safety Glasses

Stylish comfort. Lasting protection.

Eye injuries alone cost more than \$300 million per year in lost production time, medical expenses and worker compensation.¹⁷

¹⁷ According to Occupational Safety and Health Administration (OSHA)

There's a reason why Nemesis™ Eye Protection is one of the top-selling brands in North America and the most popular line in the KleenGuard™ Eye Protection portfolio.

Make that several reasons: comfort, style, durability, and a range of options to address individual needs. They all affect how workers look and feel when wearing PPE – potentially tipping the scale between protection and injury. Why take a chance on anything else?

COMFORT

- Lightweight, wraparound design provides clear peripheral vision.

PRODUCTIVITY

- Hard-coated lenses for scratch resistance and longer life

Unsurpassed durability is just what you'd expect from a trusted leader recognized for high-quality, reliable eye protection. **Choose the "original" Nemesis™ Safety Glasses.**

Variety of frame colors to express individuality and help drive compliance

Wide choice of lens options to help reduce eye fatigue

by Kimberly-Clark Professional®

Maverick™ Safety Glasses

Stylish comfort, confident protection.

Don't underestimate the power of style. Your workers need protection, but they also care how they look. Maverick™ Eye Protection, the first eyewear created for the KleenGuard™ Brand, delivers confident protection without compromising style or comfort. It's PPE that workers will want to wear. With Maverick™ Eye Protection, compliance has never looked so good.

Integrated browguard and side shields help the user feel confident they are protected

Increase safety and efficiency with premium anti-fog and anti-scratch performance

Reduce eye strain and fatigue with anti-glare coating (49312 only)

Colorful accents make it easy to identify eye protection from a distance

Comfort touch points on nose bridge and temples prevent slippage and reduce pressure

Recyclable with RightCycle by Kimberly-Clark Professional®

PRODUCTIVITY

- Passes the EN166 "N" mark test for resistance to fogging and EN166 "K" mark test for resistance to surface damage by fine particles. (49309, 49311, and 49301 only)

Smith & Wesson® Safety Glasses

Smith & Wesson® understands how a safety glass should fit the face to afford proper protection, stability, and comfort. They utilize wraparound designs to ensure excellent peripheral protection, combined with comfortable three-point fit construction. Once you try on a pair of Smith & Wesson® Safety Glasses, you'll see and feel the difference. Wear them at work, the shooting range or in the field.

All Smith & Wesson® Safety Glasses are ANSI Z87.1-2015 certified and feature precision cut, polycarbonate lenses for reduced distortion and 99.9% protection from harmful UV light.

Premium safety glasses

Elite™ Safety Glasses

Every pair comes with a carrying pouch that can double as a lens cleaning solution

FEATURES

- Lightweight and "retro-style" sunglasses design provides the latest fashion statement in safety eyewear

At Kimberly-Clark Professional, we offer customized eye protection that may be imprinted on the lens or temple, right or left side.

Order requirements

A minimum order of \$250 per product family for a single destination. Lens and frame colors within same style family can be combined in full-case increments to meet order minimums. Must order in full case increments.

Pricing

Customized product pricing is based off of the published price schedule plus any applicable imprint and freight fees. There are no set up fees.

Lead time

The lead time for eye protection products is generally 20 business days and represents the time from approved artwork and completed purchase order until it ships out to the final destination. Please allow additional time with high-volume orders. Please allow additional time for art creation (if required), art approval, and shipping.

Order cancellation/returns

Orders will not be processed until artwork is approved by customer. Once artwork is approved by the customer, the order cannot be cancelled. Returns on custom logo product will not be authorized.

For detailed customized product quoting, contact Customer Service at 1-800-428-8185.

Note: All items related to design and equipment setup become the property of Kimberly-Clark Professional.

Restroom solutions

Very few locations within a facility impact satisfaction as much as the restroom. A positive experience can drive customer loyalty and increase revenue. A negative experience can have a truly damaging effect.

We have studied hygiene needs and consumer behaviors for over 100 years. And we know that the key to an exceptional restroom experience revolves around cleanliness, hygiene, efficiency, sustainability, and satisfaction. With products and solutions from Scott®, the most well-known restroom brand and Kleenex®, the most loved restroom brand, Kimberly-Clark Professional delivers an enhanced restroom experience and increased satisfaction for employees and customers.

Elevate the restroom with our trusted, familiar brands

Have you ever thought about what the restroom could do to your bottom line?

Consider this:

- The typical office worker visits the restroom three to four times per day.
- At least three-fourths of office workers surveyed globally express some level of frustration with the restrooms in their workplaces.
- Workers' frustrations include restrooms being under-stocked, overuse of product, product quality, and dispensing problems that can result in scraps on the floors and excessive use.
- The average restroom is visited three-to-four times a day, leading to more than 1.1 million opportunities in a typical-size facility to impress or disappoint.

But there are ways to turn your restroom into an asset – with trusted, consumer-preferred Scott® Brand products and dispensers.

Unmistakably Scott®

Look for the Unmistakably Scott® icon to quickly see which of your favorite products are enhanced with the Elevated Scott® Design

Trusted Scott® Essential Solutions

Reliability you can count on

Scott® Essential Manual and Electronic Hard Roll Towel System

Engineered for efficiency

Hassle-free loading and reliable dispensing along with one of the easiest roll changes on the market. Employees can save up to seven days of labor annually.¹⁸ This 950' towel uses 17% less fiber than traditional hand towels through our unique Absorbency Pockets Technology and dries hands up to 40% faster than the leading jet air dryer.¹⁹ The system's Elevated Scott® Design towel is preferred 4:1 over standard hard roll towels.²⁰

Scott® Essential Coreless Jumbo Roll Tissue System

Outrun run-outs

Our longest two-ply, 1,150' Jumbo Roll Tissue provides unmatched labor savings. It's a one-handed easy refill: no key, no door, no hassle. Help your facility achieve zero waste with a dispenser that has a unique stub roll feature to reduce waste and costs. Each jumbo roll is longer than six standard bathroom tissue rolls. The system also features the Scott® Elevated Design bathroom tissue, preferred 4:1 over standard bathroom tissue.²⁰

Resources & Tools

Take advantage of the resources and tools we offer to help your customers reach their financial and sustainability goals.

What is RightCycle by Kimberly-Clark Professional®?

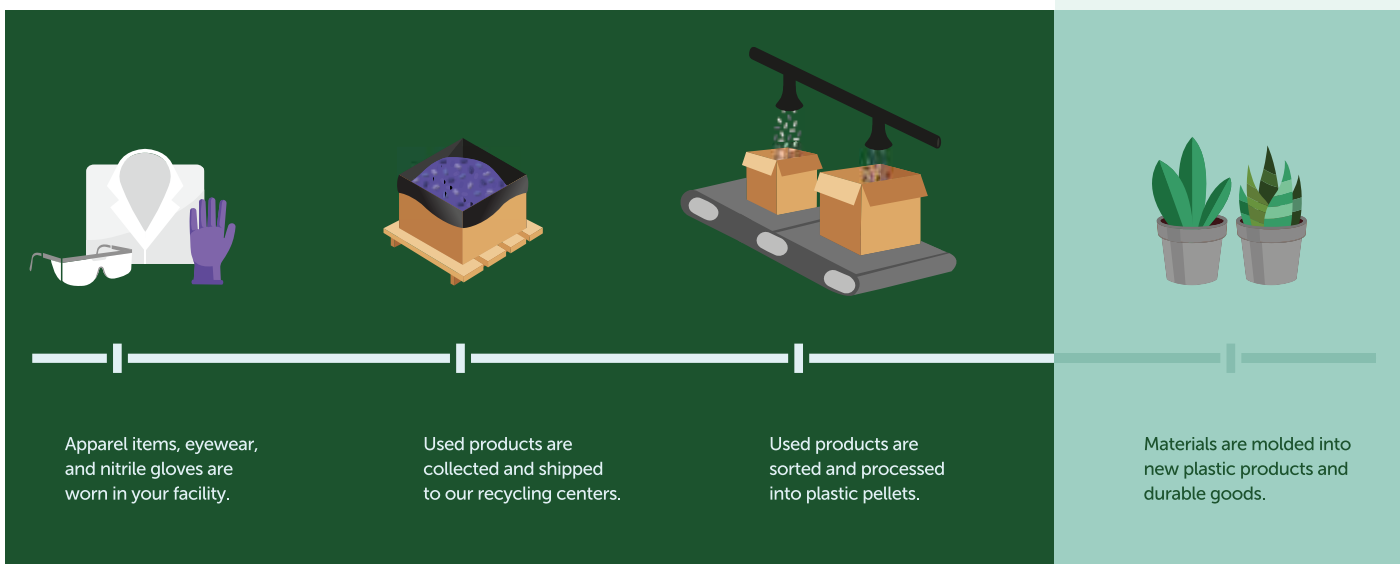

Giving single-use protective clothing, gloves and eye protection a new life.

At Kimberly-Clark Professional, our commitment to helping our company and our customers be more sustainable starts with the products we make. That's why we continually work to reduce the environmental impact of our products at all stages of their life cycle – from raw materials through ultimate disposal of used products.

We aim to reduce dependency on the world's natural resources, leaving more for the future – for our children, for the planet, for our businesses. This is a big responsibility to carry; especially with the multitude of other tasks that require attention in today's business environment. We share in that responsibility, and we want to help you reach your zero waste-to-landfill goals. That's why we created The RightCycle™ Program.

Exceptional knowledge. All in one place.

Compare products against the competition, determine your product usage, find my rep, order samples and MUCH more!

KCP Advantage* is designed to save you time and grow your business by giving you easy access to our products and programs – anytime, anywhere!

Get the free app on the Apple® App Store® / Google Play™ Store (search for KCP Advantage) or visit www.KCPAdvantage.com to access these great resources!

* KCP Advantage is only accessible to qualified distributors and Kimberly-Clark Professional employees.

Product Selector Tools

Locate the best Kimberly-Clark Professional products using the Product Cross-Reference, Good-Better-Best and Wiper Product Selector tools.

Calculator

Use these calculators to determine product usage or WypAll® cost savings.

Marketing Resources

Access insightful Distributor videos, add your company brand to existing sales materials and download high-resolution product images, all for that next client meeting.

Advanced Product Search

Find and share Kimberly-Clark Professional product information by brand, category, keyword or SKU.

Request Sample

Request product samples to grow your business and expand your customer base.

Try it. Risk-free.

Replace your current PPE or wiping products with Kimberly-Clark Professional solutions for 60 days. If you don't see a 20% cost savings, we will reimburse you the difference between the cost of your product and our product up to \$1,000.**

Take the 60-day challenge!

To learn more, contact your Kimberly-Clark Professional Sales Representative.

Guarantee extended to consuming end-user accounts with the following restrictions: Replace your current rags or laundered towels with WypAll® X Brand Wipers, WypAll® Foodservice Cloths or WypAll® Oil, Grease & Ink Cloths; replace your current wiping system with Kimtech™ Wiping Solutions for 60 days and see a 20% savings on chemical costs (06411, 06471, 77320, 36101); replace your DuPont™ Tyvek® 400 with KleenGuard™ Brand families A20, A40 and A45; replace your competitive economy eye protection (uncoated lenses) with KleenGuard™ Maverick™, Nemesis™, Nemesis™ CSA, or Nemesis™ VL Eye Protection; replace your leather palm work gloves with KleenGuard™ G40 Polyurethane Coated Gloves, your non-coated cut-resistant gloves with KleenGuard™ G60 Endurapro™ Dual Grip™ Purple Nitrile™ Gloves, and/or your 5-mil gloves with KleenGuard™ G29 Chemical Gloves. The maximum amount that Kimberly-Clark Professional will pay out under this program is \$1,000 per customer facility. Void where prohibited, taxed or restricted by law. Not responsible for lost, late, misdirected, incomplete or undeliverable submissions. Kimberly-Clark Professional reserves the right to modify or cancel this program at any time. **See individual brochures for specific details and eligible codes.
